

# ULTRAMAT 75

## Prestige Matting Systems

### The last word in luxury for your entrance

*At the top end of our ULTRAMAT series of matting systems is ULTRAMAT 75. Featuring wider 75mm treads which give a more prestige appearance, it is suitable for high-end retail, hospitality, and corporate locations. ULTRAMAT 75 also has the performance and durability that the ULTRAMAT systems are known for.*

#### BIRRUS ULTRAMAT 75 STYLE

Wider 75mm treads and a choice of clear or black anodised finishes gives a luxury aesthetic to your building entrance. With a range of 12 standard carpet tread colours, ULTRAMAT 75 can provide the look you want to complement your building's interior design. In addition, the loop-pile insert options are eco-specifier certified to meet your sustainability requirements.

#### BIRRUS ULTRAMAT 75 PERFORMANCE

Entrance matting systems have an important role in trapping dirt and moisture at the entrance and ULTRAMAT 75 can fulfil this for high-traffic commercial and public buildings. The aluminium treads also feature a furrowed design to provide an anti-slip surface for a safe walking area.

#### BIRRUS ULTRAMAT 75 QUALITY

For decades, the ULTRAMAT name has been synonymous with quality and this system builds on that reputation. We only use the highest quality materials in manufacturing, and we source the aluminium used in our products from Australian-made billet, which is milled locally. All ULTRAMAT 75 systems are individually made in Australia to your specification to ensure the best outcome for your project. If a quality outcome is important to you, an ULTRAMAT system is the obvious choice.

# BIRRUS ULTRAMAT SYSTEMS

## BIRRUS ULTRAMAT 75

ULTRAMAT 75 was developed with wider carpet treads for a more plush appearance for entrance areas. These treads are securely held within extruded aluminium retaining sections which are lightly furrowed on the exposed side for additional grip on the walking surface. The aluminium used is a high-quality 6000-series alloy selected for durability and anodised with a 15-micron black or clear coating for a lasting look. The closed-construction design has a 10mm depth to fit in a recessed installation.

As with all Birrus matting systems, ULTRAMAT 75 products are individually tailored to meet the length and width required for your design, so you get the outcome you want.

## BIRRUS ULTRAMAT TECHNICAL SPECIFICATION

### CONSTRUCTION

- High quality aluminium construction
  - » 6000 series alloy for a high-quality and corrosion resistant finish
- Furrowed aluminium treads for a non-slip surface
- 10mm Closed Construction

### DESIGN

- 15-micron anodised coating in Clear or Midnight Black
- 12 different carpet colour options with other colours available by special request
- Loop-pile carpet options are Ecospecifier Global Green Tag Certified to GreenRate Level C
- Matting length and width can be constructed to your specification

### ACCREDITATION

- Australian made by an Australian-Owned company
- Our Cut Pile and Loop Pile options are both slip-tested and fire-tested to Australian Standards
- 10-Year Warranty

## LOOP PILE SPECIFICATIONS

### Technical Specification

**Environmental:** Ecospecifier Global Green Tag Certified to GreenRate Level C  
**Insert Material:** Loop Pile Carpet  
**Yarn:** Type 6 Nylon  
**Pile Weight:** 814 g/m<sup>2</sup>  
**Colour System:** 100% Solution Dyed Nylon  
**Machine Gauge:** 1/12th Gauge  
**Pile Height:** 4.0mm (+/- 0.5mm)  
**Total Thickness:** 7.5mm (+/- 0.5mm)  
**Backing Structure:** GlasBac<sup>®</sup>, GlasBac<sup>®</sup>RE

## CUT PILE SPECIFICATIONS

### Technical Specification

**Insert Material:** Cut Pile  
**Yarn:** Yarn Dyed Nylon  
**Yarn Weight:** 1000g/m<sup>2</sup>  
**Machine Gauge:** 1/10th Gauge  
**Total Thickness:** 9.0mm  
**Backing Structure:** Reinforced PVC backing

## ABOUT BIRRUS

For over 70 years, Birrus has been trusted by architects and builders in Australia for products that are both beautiful and durable. We have maintained our market leadership by moving with the times, using the latest materials and design innovations to remain your first choice for matting systems. All of our matting systems are manufactured in Australia using high-grade materials. As a company, Birrus has also implemented a number of measures to minimise our carbon footprint, initiated recycling procedures and gained environmental accreditation.
